Personal Statement

Analytical and detail-oriented **Data Analyst** skilled in **data science, automation, and business intelligence**. Proficient in **Python, Power BI, SQL, and Azure Data & AI services**. Experienced in data modelling, visualisation, and predictive analytics to support evidence-based decision-making. Strong communicator with a record of delivering efficient reporting systems and actionable insights. Currently expanding expertise through a **Codecademy Data Science with Python Bootcamp**, applying advanced analytical and machine-learning techniques to real-world projects.

Key Technical Skills

Programming & Analytics: Python (Pandas, NumPy, SciPy, Matplotlib, Seaborn), SQL (T-SQL), Advanced Excel

Data Visualisation: Power BI, Tableau, Plotly, Excel Dashboards

Power Platform: Power BI (DAX, data modelling), Power Automate (workflow automation), Power Apps (basic)

Statistical & Machine Learning: Regression, Hypothesis Testing, Logistic Classification, Predictive Modelling

Database & Cloud: SQL Server (SSMS), Azure Data & AI (DP-900, AI-900), data pipelines

Other Tools: Git, APIs, Web Scraping (BeautifulSoup, Requests)

Core Competencies

- Analytical problem-solving and quantitative reasoning
 - Strong communication and stakeholder engagement
 - Data storytelling and visual communication
 - Adaptability and continuous learning
 - Workflow optimisation and process automation
-

Certifications & Training

- **Data Science with Python Bootcamp**, Codecademy, 2025
Modules: Python Fundamentals, Data Analysis & Visualisation (NumPy, Pandas, SQL, Matplotlib, Seaborn),
Advanced Analytics (Regression, Classification, Hypothesis Testing), Final Capstone Project
 - **Skills Bootcamp – Data Analytics with Python (Level 4)** | Gateshead College, 2025
Data Analyst Bootcamp (Excel, SQL, Power BI) (Level 3) | Purple Beard Training, 2023
 - **Coding Practices (Python, SQL, JavaScript) – Level 3** | Learning Curve Group, 2023
 - **GCSE Maths (Grade 5)** | NCL College, 2025
 - **English Functional Skills Level 2** | NCL College, 2025
 - **Level 2 Understanding Autism** | Learning Curve Group, 2022
-

Professional Experience

E-Commerce Volunteer (Data Analytics Focus)

Oxfam, Newcastle | 2025 – Present

- Developed automated Excel dashboards for real-time sales and category insights.
- Conducted sales trend and demand analysis to optimise product inventory.
- Reduced manual reporting time by 40% through workflow automation.
- Supported e-commerce decision-making using data-driven visualisations and KPIs.

Customer Service Representative

Zeemu Limited, Newcastle | Sep 2021 – Oct 2022

- Built Excel-based KPI dashboards to monitor performance metrics.
- Delivered operational improvements resulting in £20K annual savings.
- Enhanced customer conversion rate from 40% to 65% via data analysis insights.

Customer Service Representative

Tyne News 1 Limited, Newcastle | Jul 2018 – Aug 2021

- Designed structured Excel templates improving reporting accuracy and speed.
 - Boosted productivity by 15% through process optimisation.
 - Contributed to a 25% revenue growth using sales trend analysis.
-

Education

MSc in Computer Science | COMSATS University, Pakistan | May 2015

- Focused on programming, algorithms, and data structures.

- Capstone in web development and database management.

B.Ed. in Primary Education | University of Education, Pakistan | Sep 2012

- Emphasis on educational technology and digital learning.
